Subject: RE: AK fish consumption rates and WQS - New FOIA request

Hello Sheila,

I have some -emails and documents concerning fish consumption and fish contaminants in AK. How much time do I have and how will I respond? Shall I submit through you or is there anything set-up in the FOIA online? Thanks.

Ginna Grepo-Grove

Sheila,

I may have something on this. I worked a few years ago with Sally Brough on some Alaska water quality issues for aquatic life, although I think the work may pre-date the start date of the FOIA. I'll have to check. I wouldn't have anything on fish consumption rates.

Best regards,

Burt Shephard

Subject: AK fish consumption rates and WQS - New FOIA request

Hi All,

We just received a FOIA request for the info listed below. Do any of you have responsive documents? I was thinking primarily of Lon or Burt or maybe Ginna, but this may apply to others. Start date is Jan 1, 2008 through this week. Please reply only if you think you have responsive documents. If you know of someone in OEA, but not in REU or on the QA TEAM, that may have documents, also please let me know.

Thanks, Sheila

By this letter, University Legal Assistance is requesting any and all documents (including written or recorded correspondence, audiotapes, electronic records, telephone messages, voice mail messages, e-mails, facsimiles, information about meetings and discussions, whether in-person or over the telephone) from January 1st, 2008 to the date of this letter that discuss or in any way relates to:

- A. Alaska's Fish Consumption Rates, Alaska's Human Health Criteria for Fish Consumption and Alaska's Water Quality Standards for Toxics.
- B. Any studies undertaken by the EPA to review levels of toxics found in fish in Alaska or studies undertaken by the EPA to review Alaska's Fish Consumption Rate.
- C. Any correspondence sent or received between the EPA Region 10 and the State of Alaska, Alaska Department of Environmental Conservation, Alaska Department of Health and Social Services or Alaska Department of Fish and Wildlife that may in any way pertain to Alaska's Fish Consumption Rate or Water Quality Standards as they pertain to fish.
